IMMIGRATION TO MEXICO.

GENERAL J. A. EARLY'S LETTER.

Gen. J. A. Early, late of the Confederate States army, who has lately visited Mexico. writes a letter, which we think will effectually "close up," the talked of Immigration to Mex-

co. We make the following extract: Land titles in Mexico are in a very unsettled condition, and but few men know the boundsries of their own lands. So uninformed is the Government its li in regard to the lands to which it has claims that, in making a contract with General Hardeman, of Texas, for the survey of the public lands in Durango, the whole risk and expense of discovering those lands have been thrown on him, and he is to receive compensation only in the event of his being able to find and survey the lands, the Government not even undertaking to furnish him OVAL & SQUARE PICTURE FRAMES. protection against guerrillas and robbers, while he is engaged in fulfilling his contract. The lands offered by private individuals in alternate sections to colonists, so far as I am informed, are in remote districts, where the Liberals, or Dissidents, as they are called, have control, and the Government can afford no protection .-The very highly colored accounts of the country and its resources which have been published, and expectations of a large influx of emigrants which have been excited, have caused proprietors having lands for sale to increase enormously the prices asked for them, and many persons who have recently arrived in the country have been unable to procure lands, either from the faction, while others, who relied on the delusive promi-es of aid from the Government. find themselves not only without the means of obtaining lands but of returning to their former homes. It is exceedingly difficult for those who have succeeded in getting lands to procurlabor to put them in a state of cultivation, as

the native population cannot be relied on for that purpose. All idea of procuring assistance from the Government must be abandoned by those who desire to emigrate to the country. I have no doubt that Mexico has resources which under a statle government and with capital and labor sufficient, are susceptible of a very considerable development, but those who go there excepting to find the beautiful and fruitful land which is described in some of the published a counts, will be doomed to as sad a disap pointment as that experienced by the old Spanish conquerors in their search for the fable d Eldorado On the railroad which is being constructed from Vera Cruz to the City of Mexico, practical and experienced engineers, contractors and mechanics may find employment, but otherwise very few positions are open to those who do not wish to cultivate the sail. Pnysicians who can speak the language, can get pe mission to practice their professions, but beyord this there is no opening whatever for any of the learned

As to the stability of the Government, I will state that I have no information, except what may be obtain doy any sojourner in the country who cannot speak the language. Though I remained in the national capital for nearly three months, I did not see, even casually, so tar as I know, the Emperor, Empress, or any minister of the Government, nor did I seek t see them. I think, however, I am warranged in saying that any one who de-ires to make Mexico his permanent home, must do so without reference to the duration of the present Government. Information as to the length of time which that Government is to be main-

I have not advised any of my personal friendto emigrate to the country, and my knowledge is not sufficient to justify me in now giving any postive advice either way, but, though my own determination to remain in easile is un hanged. I feel a deep interest in the welfare of all my countrymen of the Southern States, and the knowledge which I obtained from my own observation, as well as from the information of others, is sufficient not only to authorize me. but, in my estimation, to make it my duty to advise all those who are desirous of seeking new homes not to give up their present ones and emigrate to Mexico, until they shall have examined the country in person, or ascertained through some friend on whose judgment and experience they can rely, that their situations will be betrered. Above all, let no man who has a wife and children carry them to Mexico until he has secured a certain home and a fair prospect of support for them. By observing this cantion much disappointment and suffer-
